## Chancellor Von Buelow Resigns and is Immediately Succeeded by Vice-Chancellor Who Takes House

### Greeks Preparing to Declare War Against Turkey in Few Days.

### Artillery Duel in Streets of Teheran Nets Many More Victims.

Berlin, July 14.—Prince Von Buelow tendered his resignation as chancellor of Germany today. The kaiser accepted it and named Dr. Von Bethmann-Hollweg his successor. Hollweg was former vice-chancellor and secretary of state.

After an impressive scene when Von Buelow resigned the kaiser, brilliant in the uniform of field marshal, tendered to Hollweg the portfolio of chancellor, which he accepted. This departure from the old formal custom caused a protest from some in the court circles. Hollweg went to the chancellor's office, where he was given the seals and heartily congratulated by Von Buelow. He went to the home of the chancellor, where he will take up his residence immediately.

Dispatches from ambassadors here to the home countries say the appointment of Hollweg means the kaiser will have direct charge of affairs and will pass over the head of his chancellor and deal directly with foreign office in case of complications with other countries.

The kaiser arrived from Kiel this morning to prepare for the formal dismissal of Von Buelow. The ceremony took place in the imperial audience room. The kaiser was overcome with emotion when Von Buelow, his tears falling, handed his resignation together with papers regarding political charges against him.

"Bernhard, you always served me well. You and I always will remain friends," said the kaiser.

### Fighting in Teheran.

Teheran, July 14.—Persian rebels attempted to rush the intrenchments of a few hundred Persian Cossacks this morning. The Cossacks are in the very heart of the city. Heavy cannonading on both sides resulted in the greatest number of casualties yet known in a fight here.

Foreign residents of Teheran are in grave danger. Rebels occupied by the fierce engagement in the center of the city, where the Cossacks are entrenched and at the east gate where loyalist troops are trying to gain entrance, demanded from the British and Russian legations an explanation of flying the Russian flag over the barricade. It is feared this will make the flag an excuse for a massacre. The shah is hurrying a reinforcement of loyalist troops to Teheran.

### Greeks Will Fight.

Salonika, July 14.—A declaration of war against Turkey by Greece is expected to follow orders driving Greeks from the Turkish frontier. All Greeks are compelled by soldiers to leave without time to dispose of their business or homes. Turks claimed the Greeks were spies.

The third army corps has been mobilized and various regiments have been going toward the frontier for several days. When the mobilization is completed Turks will begin clearing Greeks from the country. The only explanation of the feud is that the Greeks are spies. This angered Greece more than the ousting. They confidently expect the announcement of war to come in a few days.

### Wells-Fargo Merger.

Mexico City, July 14.—The merger of the National Mexican Express company in Mexico and that of the National Mexican Express company will go into effect October 1, according to a statement made by C. W. Stockton, of New York, counsel and assistant to the president of the Wells-Fargo. Mr. Stockton arrived here yesterday from New York and joined A. Christenson, general superintendent. They have been in consultation with Joaquín Casasus, former Mexican ambassador to the United States, legal adviser of the National express.

Ribs	.11.42	.11.35	.11.42	

Chicago, July 14.—July wheat soared sensationally during the first hour of trading today, touching 1.25, the highest yet reached on the crop.

### Strikers Fight

Pittsburgh, July 14.—A clash between police and strikers occurred this afternoon when the police endeavored to escort strike breakers into the plant of the Pressed Steel Car company. Fifty people are reported hurt in the encounter.

Farmers' Union at Heath. A large crowd attended the Farmers' Union rally at Heath today. Speeches were made by the officers of the union, and a barbecue dinner was served on the ground.

Would Marry His Victim's Widow. New Orleans, July 14.—Carl Bortuna, slayer of George Knecht, it is declared today, wanted to marry the widow of his victim, if she would have him and the authorities allow.

Train Hits Hand Car. Chicago, July 14.—One was killed and one fatally injured and two severely hurt when a hand-car on which they were riding, was struck by a Northwestern train this morning in a fog.

Roosevelts Laugh at Adventure. Navalish, July 14.—Roosevelt and Kermit and other members of the party are laughing at the hardships underwent in crossing the desert before they reached the Attadborough estate. Though they minimize the danger, members of the party corroborate the fact that they were short of food and water and suffered greatly.

Mrs. Knecht Gives Bond. New Orleans, La., July 14.—Mrs. George Knecht, widow of the baker who was killed here by his helper, Carl Bortuna, last week, was released under a bond of \$1,000 today to appear as a witness against her husband's slayer. Mrs. Knecht confessed her love for Bortuna. She wept continuously during her appearance in court.

Gov. Johnson Ill. Minneapolis, July 14.—Governor John A. Johnson is seriously ill at his apartments in the Aberdeen hotel, and all his engagements for the week have been cancelled. Governor Johnson has already undergone three operations for appendicitis and intestinal trouble, and his present indisposition is due to a recurrence of his old trouble.

Lays Out Burial Clothes First. Iowa City, Iowa, July 14.—Mrs. William Oliphant Westbranch poisoned herself and four children last night. The baby girl is dead, the others possibly will be saved. The babies spit out candy on which the poison was put. The woman laid out their funeral clothes before she gave them poison. She and three children have a slight chance of recovery today. Domestic troubles caused the deed.

Taft Can't Take River Trip. Washington, July 14.—President Taft continues daily to receive invitations to visit cities that were not included in the itinerary of his western and southern trip announced several days ago. The entire Republican delegation from Missouri, headed by Representative Bartholdt, called at the white house to bespeak the president's consideration of an invitation which will formally be extended next week to visit St. Louis. The Missouri delegation is particularly anxious that the president should be in St. Louis during the celebration of the one hundredth anniversary of the founding of the city, to be held October 3 to 9.

They would also like to have the president make the trip down the Mississippi river to New Orleans, arriving at the latter city in time to attend the deep waterways convention.

WEATHER  
CLOUDY  
Increasing cloudiness tonight and Thursday. Probably local thunder showers. Highest temperature yesterday, 80; lowest today, 74.

## LUNACY INQUEST INTO CONDITION HIRAM SMEDLEY

Probable, in View of Opinion  
of Physician, Who Examined Him.

Others Will be Asked to Express Opinion

THINKS HE CAN BE RESTORED.

If physicians directed by County Attorney Alben Barkley agree with Dr. H. P. Sights that Hiram Smedley, former county clerk, now in jail awaiting trial on the charge of forgery and embezzlement, is suffering from toxic insanity, a lunacy inquest probably will be instituted.

Dr. Sights, who examined Smedley at the instance of his attorneys, said he thought the drugs Smedley has been using actually have produced an abnormal mental condition, accurately toxic insanity. Dr. Sights, however, believes that with proper treatment and the elimination of the drug Smedley can be cured. Smedley has no money with which to employ a physician to treat him in the jail here, and Mr. Barkley said he would not wish to try the man if there is much doubt as to his sanity. If the case came to trial and proof of insanity was introduced the court would grant a continuance, but in that event the same situation would be met at each succeeding term, unless the prisoner was given treatment. Simply cutting off his supply of the drug after having used it so constantly for so long a time would be disastrous.

Mr. Barkley is evidently impressed with what Dr. Sights has said, since the latter agrees in the main with what County Physician Young has said, that the condition is produced by a drug. Other physicians will be asked to examine the prisoner for the county attorney.

If Smedley is sent to the asylum at Hopkinsville and is cured he will be returned to the jail here and tried.

COL. POINTER'S BODY SHIPPED.  
Interment of Gen. Wheeler's Aide Will Be Made in Memphis.

New York, July 14.—The body of Col. Marcellus Pointer, the friend and aide-de-camp of Gen. Joseph Wheeler who died Saturday in a hotel on the Bowery, was sent to Memphis today for burial.

Maj. Edward Owen, commander of the local camp of Confederate veterans, arranged to hold funeral services in this city, but changed his plans today upon receipt of a telegram from Philip Pointer, of Como, Miss., the old soldier's brother, asking that the body be sent south.

## STATE HOPES TO COMPEL EVELYN TO TELL THREAT

White Plains, July 14.—Evelyn Thaw was on the stand this afternoon to testify in her husband's sanity hearing. The state will endeavor to force from her admissions which will keep her husband in the insane asylum. Thaw will go on the stand Monday. His attorneys tried to get a ruling that the state cannot ask Thaw about things occurring before the White killing. The state objected. Justice Mills declared the state will be given ample opportunity to examine Thaw. If he is not put on the stand by his attorneys the justice himself will order Thaw to take the stand.

Attorney Dan O'Reilly was summoned to appear in the Thaw case today. He wanted to prove he was not attorney for Thaw or Evelyn when he had a conference at the asylum, which was referred to in the testimony yesterday. If they can prove this they will be able to get Evelyn to answer all questions asked. Mr. Clark tried hard to get her to admit that Thaw had threatened her life when she visited him on one occasion after his commitment to Matteawan, but turning appealingly to the court she repeatedly refused to answer his questions, and after a clash between counsel, Justice Mills ruled that he would hold the conversation a confidential one between husband and wife, and therefore privileged, until the state presented proof to show that Daniel O'Reilly, the New York lawyer, who was present at the time, was not then acting as counsel for both Mr. and Mrs. Thaw.

## Bold Daylight Highway Robbery

It is Believed Desperate  
Men Who Escaped  
From Jail Are Guilty  
of Crime.

Two desperate highwaymen, one white and the other colored, believed to be escaped prisoners from the county jail, held up Muir C. Givens, a collector for the Rhodes-Burford Furniture company, this morning about 9:30 o'clock on Vasseur avenue in Mechanicsburg and robbed him of \$8. The attack was so bold and sudden that Givens was unable to give the alarm until his assailants had escaped. The white man held Givens' throat while he displayed the butt of a pistol, while the negro ransacked his pockets. Givens was badly frightened and could give only a meager description of the highwaymen, but his description of the white man suits that of Cicero Anderson, who broke jail.

Vasseur avenue is in Mechanicsburg in the rear of Jones' cold storage, and Givens had been out the avenue collecting. He was riding a wheel, and was coasting down a small grade to a bridge which is the city limits. As he neared the bridge the two men rushed up the embankment, and before he was aware of their presence they grabbed him and pulled him from his wheel. With an oath and the demand "We want your money," the white man seized him around the neck and pinned him to the ground. He threatened to use the pistol if Givens made an outcry. The negro ransacked every pocket but took only money, \$7.50, which Givens had collected for the firm while fifty cents in change was his personal property. The change was taken from the pocket he carried his watch, but the thieves did not take it. One pocket was torn in the haste to get the money.

After the robbery the men dashed down the embankment, and ran towards Island creek, and disappeared. Givens, as quickly as possible, notified John Lewis, who resides within 100 feet of the spot where the hold-up took place. The police were notified, and they made a search, but did not see the men. The empty pocket book was found a short distance away. Two men were seen crossing the trestle of the Illinois Central railroad, but on account of the distance they could not be identified.

Numerous reports have been received that strange men, suspected of being the jail breakers, were hiding in the vicinity, and yesterday afternoon the police and deputy sheriffs scoured the territory, but failed to find a trace of the men.

Givens is a reliable young man and resides at 1024 Trimble street. None Captured Yet. None of the escaped prisoners of the county jail have been recaptured. The police feel confident several are hanging about the city and expect to pick them up. Saturday a person was seen with Dave Slaggle, one of the brass thieves, and a warrant has been issued for his arrest. He is suspected of assisting the men in escaping. Since the hold-up this morning the police believe the men have a hiding place near Tyler.

MARTIN AND COMPANY'S  
FIRE LOSS IS ADJUSTED  
Insurance adjusters have adjusted the loss in the tobacco warehouse of W. Martin & company. The loss was estimated at \$13,000. The insurance was \$8,000 and the company was allowed \$3,000 salvage. The company was well pleased with the adjustment and the fair treatment accorded by the insurance men.

## WOMAN RECEIVES BULLET HUSBAND FIRED AT LOVER

Altoona, Pa., July 14.—Frank McMillan, a wealthy resident of Greenwood, is in jail today following the killing of his wife last night. She was with William McDowell, at her home, her husband says. He declared he warned McDowell not to go there. He tried to shoot him. The woman stepped in front, deliberately taking the bullets herself.

### Martial Law in Honduras

New Orleans, July 14.—Martial law has been declared along the north coast of Spanish Honduras. Government forces are in danger of deserting to the side of the revolution, according to Dr. Miralda, for her minister to Nicaragua, who arrived here today.

## Farmer Rides Ahead of Flood in Missouri

Alton, Ill., July 14.—John Kites, a farmer, saved 120 from death today, riding down the Missouri river valley warning farmers of the flood which inundated the valley when the levee at Missouri Point went out. West Alton was threatened by the deluge. Thousands of dollars of damage was done to crops this morning. Thirty families are homeless.

St. Louis, July 14.—With the river overspreading the levee and still rising it is believed considerable damage will be caused here before night. It is believed the crest will be reached today. Reports from Kansas City say

the Missouri and Kaw are falling rapidly. It is believed the flood danger is over.

### Jeffrey & Son Get Excavating Contract.

Mayfield, Ky., July 14.—The contract for the excavation of the government building has been let to W. N. Jeffrey & Son and work is to begin next Monday. It is to be 60x85 and 10 feet deep. The work is to be completed by August 1, but Mr. Jeffrey thinks he will have it finished before that time. The contract for all the other hauling work for the contractors of the building was also let to Jeffrey & Son.

## SAYLOR'S MURDER AROUSES BITTER PUBLIC FEELING

Watseka, Ill., July 14.—Excitement over the killing of J. B. Saylor, of Crescent City, banker, by Dr. W. R. Miller, is increasing. Extra guards are placed about the jail where Miller, and Mrs. Saylor are incarcerated. Police are confident today they can get evidence to show that Saylor's death was planned by Mrs. Saylor and Miller. A strong box containing papers, always left by Saylor when out of town, will be opened today. It is expected to throw light on the case. The funeral of Saylor was held late this afternoon. Special precaution was taken to guard the jail here during the services. Mrs. Saylor applied for permission to attend the funeral. This was refused on the ground it might cause an outbreak.

### Indiana Investigation.

Indianapolis, July 14.—Charging that W. C. Ball, of Terre Haute, had printed for the firm of which he was a member, done at the boys' industrial school, of which he was trustee, Governor Marshall started an investigation today. Ball and the governor are both Democrats.

### Prosecutor Threatened.

Laporte, Ind., July 14.—Intense excitement is caused here by threatening letters saying the home of Prosecuting Attorney Smith will be dynamited. Smith was a leader in the temperance movement and it is believed threats are made by saloon sympathizers. Smith was prominent in the Guinness case.

### Five Army Recruits.

Capt. G. W. Kirkpatrick, of Evansville, arrived in the city yesterday afternoon for the purpose of enlisting United States recruits who have applied at the recruiting station here. Four white men have been enlisted and one negro. The following white men will be stationed at some coast artillery: Manuel Henry, of Caseyville, Ky.; Russell T. Barrows, of Moltke, Tenn.; Lonie L. Stringer, of Newbern, Ky.; Samuel Woolsey, of Hopkinsville, Ky. The negro, Riley Shaw, of Paducah, will be put in the Twenty-fourth New York infantry.

### Boys Leave Home

Five boys who reside in Mechanicsburg left home Tuesday night on a sightseeing trip and failed to give their parents notice of their journey. It is thought that the boys are in Fulton now, and the parents have notified the officers to watch for them. The boys are: Clarence Scott, Jesse Cochran, James Skillian, Henry Shoff and Will Walker. The boys are about 16 years old.

### LOEB WOULD COLLECT MORE ON IMPORTED BEER.

New York, July 14.—Collector Loeb has just made a recommendation for a change in the manner of collecting the customs on imported beers, which, if allowed in Washington, would net the government an extra \$250,000 a year. There will be no added charges to the consumer, as the retail price asked now is thought to be all the trade will bear.

Hitherto it has been the custom to rate half barrels containing sixteen gallons and supposed shrinkage in the staves. Collector Loeb has found that all kegs are carefully inspected by the home officials before being shipped to this country and stamped with their exact contents. It is his wish now to follow the official ratings and discontinue an allowance worth 40 cents on each cask admitted.

## SEWER DISTRICT NUMBER ONE MUST CONFORM TO LAW

Property owners residing in sewer district No. 1, were given until August 15 to connect with the sewer when the cases were called in police court this morning. Dr. H. P. Sights, city health officer, has sworn out a wholesale batch of warrants, and will not stop until every property owner in sewer district No. 1, has been brought to police court. The property owners this morning agreed to connect with the sewers and the cases were continued for a month.

## COUNTY EXEMPTED FROM BLIZZARD POND EXPENSE

McCracken county will be exempt from the assessment of \$1,150 for the drainage of Blizzard pond. This verdict was returned yesterday afternoon by the jury after it had visited the pond, and heard the arguments yesterday. The county officials thought it would be necessary for the county to erect a permanent bridge of concrete or iron over the ditch at the Oaks Station road, and with the assessment would be too much for the county's expense. The Realty Development company contended that \$450 would erect a bridge of sufficient strength.

### Marshall Circuit Adjourns.

Benton, Ky., July 14. (Special.)—Circuit court was adjourned today at noon after disposing of all the cases on the docket. The continuance of the night rider cases until the September term enabled the court to continue for only a few days.

### Fate of Mulai Hafid Unknown.

Mardid, July 14.—A dispatch from Tetuan says that Roghi, leader of the rebellious tribesmen, attacked Fez and succeeded in forcing an entry into the city. His followers pillaged the stores and many of the merchants fled to Mequinez. The fate of Mulai Hafid is unknown.

## WESTON ARRIVES AT FRISCO LATE THIS AFTERNOON

San Francisco, Cal., July 14.—Weston is expected to finish his walk to the coast this afternoon. He left Goodyear, 25 miles from here, early. He is expected to finish without stopping.

## SERVANT STOLE CASH AND PUT WILL IN THE CASKET

New York, July 14.—Convinced that deeds to valuable property have been buried with their mother, children of the late Caroline Schilling, of Brooklyn, will have her body exhumed. They believe this will, with other papers put in her coffin by a servant, who recently was arrested for vagrancy and found to have large sums of cash and a number of diamonds and a number of bank books which show a big account, sewed in his clothes.

### Gingles Case With Jury

Chicago, July 14.—The Gingles trial is expected to go to the jury tomorrow night. The state's attorney will finish his examination of witnesses today. Witnesses from Canada were called during the morning to impeach the girl's character.

## CONFEREES ARE MAKING PROGRESS

EXPECT TO SUBMIT BILL  
TO BOTH HOUSES ABOUT  
TUESDAY.

FIRST CLASH EXPECTED TO  
COME OVER PAINTS AND  
LEAD.

Washington, July 14.—Tariff conferees are making such rapid progress it is the hope of members of both houses that the result of their labors will be submitted by Tuesday. The first reading of the bill was concluded at the late session last night. Today the schedules from the beginning were taken up and a number of these schedules already have been adjusted. The first real contest of the conference is expected to come over paints and lead. The house wanted lead duties increased and the senate asked to increase paints, the basis of which is lead.

Work of Congress. By passing over the cotton and woolen schedules without taking up any of the amended paragraphs, and skipping the disputed points connected with the rates on lumber in the wood schedule, the tariff conferees were able to dispose of about 400 amendments. This number, however, includes subjects that were settled tentatively on Monday and Saturday.

Many important subjects, such as the house drawback feature of the alcohol paragraph, the rates on oilcloth and the various items under the head of lithographs were submitted to sub-conferences.

The treasury experts who helped the senate finance committee in its consideration of the bill are assisting the conferees in gathering information about these subjects.

When the last session was begun the conferees had reached sundries, nearly the last of the schedules. So many matters had been put over for future sessions, however, that it is difficult to tell just how much progress has been made.

The conferees are making every effort to prevent the advance publication of decisions reached by the conferees regardless of how unimportant are the questions determined.

The corridors about the conference room in the senate office buildings are about as thickly peopled with representatives of special interests and lobbyists generally as they were when the bill was in house and senate committee.

The moment a member of the conference emerges from a session he is surrounded and briefs relating to various schedules have adopted the plan of refusing to accept these arguments, basing their declination upon the ground that the bill has been considered in both branches of congress and that it is now the duty of the conference committee to harmonize the differences without outside influence of any kind.

Few of the conferees predict that a report can be made before a week from Saturday and some go so far as to forecast August 1, or later for the adjournment of the extra session.

Conferees Interviewed. A representative of the press interrogated one of the conferees as to the progress that has been made. A list of practically all of the amended paragraphs of public interest was submitted to him. It covered nearly one hundred subjects and not one of them had been settled definitely, it was learned.

Members of the senate committee on finance are preparing a statement replying to charges that are senate amendments to the tariff will result in increasing the cost of woolen and cotton clothing, shoes and other articles of common wear, as well as other necessities of life.

The statement will show that the duty on shoes has been reduced and that there has not been a single change in the rates on woolen goods, and that the rates on cotton have not been increased.

There will follow a list of about 500 decreases in rates from the Dingley duties, and a list of about sixty or seventy-five increases. An effort will be made to show that most of the latter are not in reality, increases of rates, but that they provide for the collection of the rates fixed by the Dingley law, which had been set aside by the misinterpretation of that law.

Western Union Suffers. Des Moines, Iowa, July 14.—More than 4,000 Western Union Telegraph company poles in Iowa were broken by recent storms and floods throughout the state, and the total loss to the company is estimated at \$280,000.

## HE SUFFERED FOR HIS CHILD'S SAKE

DID NOT WANT DAUGHTER TO  
UNDERSTAND MOTHER.

Held in Custody—Tragedy at Cres-  
cent City Develops Sensational  
Aspect.

WIFE IS NOT SORRY AT DEATH

Watseka, Ill., July 14.—That J. B. Saylor, the Crescent City banker who was slain Sunday by Dr. W. R. Miller remained passive for the sake of his 17-year-old daughter, Goldie, while the talk of the alleged intimacy of his wife and Miller was rife, not only in his home town but in other parts of the country, is asserted by the dead man's closest friends.

On this theory alone are they able to account for the banker's uncom-  
plaining silence during the last two years during which it is said Miller has, with growing frequency, been Mrs. Saylor's guest at her home, and her companion on long drives, ram-  
bles through the woods and on hunt-  
ing expeditions.

Saylor idolized his daughter Goldie. Two years ago he sent her to the neighboring town of Onarga to at-  
tend a seminary. In order, it is now said, that she might not witness the domestic tangle which was coming into general notice.

#### Suffered in Silence.

According to W. R. Nightingale, cashier of the bank of which Saylor was vice president, the devoted father determined to suffer in silence rather than take any action which would involve his child in notoriety. "He seemed to fear some tragic so-  
lution of the situation," said Nightingale. "Whenever he left the city during the last year or so it was his habit to seek privacy, after which he would reappear with a bulky en-  
velope containing papers. Should anything happen to him, he always told me, I was to open the packet and to follow to the letter the in-  
structions contained therein. After each trip but the last he destroyed the papers on his return. He was away a little while ago, but when he came back, he failed to follow this practice. That packet I believe is locked in his private box in the bank's vault. Whether it will shed any light on the tragedy which ended his life I can not say. The coron-  
er has the key, and will open the box later."

#### Says Self Defense.

Miller's defense is that he shot only when attacked by the banker with a hatchet. Evidence casting a shadow on his statement was given at the inquest.

The tragedy occurred about 10 o'clock Sunday night. Mrs. Miller, wife of the doctor, had left a few days previously to visit her parents at Sharon, Pa., and Miller was tak-  
ing his meals at Saylor's table, sleep-  
ing at his own home. There were also at Saylor's home, John C. Grund-  
en, father of Mrs. Saylor, and Ira Grund-  
en, her brother. The older Grund-  
en came recently from Ard-  
more, Okla., to become an inmate of the Soldiers' Home at Danville, near here. Ira Grunden came Sun-  
day morning from his home at Shel-  
don, Ill. John Grunden's arrival was on the previous day.

#### They Had Signals.

The whole party, including Saylor, took breakfast together, but there-  
after the latter had nothing to do with the others. At noon he did not appear for dinner, and ate supper alone, Miller, Mrs. Saylor and her father and brother being absent look-  
ing at some horses. Later the others returned and had their evening meal, Saylor being out on the lawn. John Grunden later asked Saylor to join the party in a game of cards. They two against Miller and Mrs. Saylor. Saylor refused, somewhat sharply. His refusal, Mrs. Saylor states, was due to the belief that she and the doctor attained success at the game by a system of signals.

States Attorney Pollard has three witnesses to testify to the apparent excellence of Saylor's humor a few moments before the shooting. They are Grace Davis, Stella DeHart and Godfrey Rubie. They said they had stopped and chatted a moment with Saylor.

Miss Davis said: "My home is but half a block from Saylor's, but I had scarcely reached there when I heard four shots. It was not more than three minutes before that I had been talking to him."

ysis.

## NINE FOOT STAGE

SURVEYS ARE COMPLETED FROM  
PITTSBURGH TO CAIRO.

President J. L. Vance, of Ohio Val-  
ley Association, Coming to  
Kentucky.

Cincinnati, July 14.—Col. John L. Vance, of Columbus, O., president of the Ohio Valley Improvement association, and who is working his way from Pittsburgh to Cairo to stir up interest in the coming convention, will be in Louisville within a few days. He registered at the Sutton hotel here and was in conference last night with Capt. J. P. Ellison, who is prominent in the waterways work of the association. He says that the hardest part of the work for the nine-foot channel in the Ohio river has been accomplished and that all the surveys for the work have been completed. The convention will be held here on October 14 and 15.

It is easier to pre-

Our mothers have gray

### Daily Thought.

If you are not satisfied with your  
lot, trade it for a better one.

We love our work, but O. Yu-kon!  
We think we observe some bingles  
in the Gingles case.

The Shah is reduced to the value  
of a polite expletive.

The Glidden tourists stopped at  
Chicago en honk to Madison.

The Calloway Times speaks of a  
wholesale jail delivery in Paducah  
and the scattering of prisoners. Pa-  
ducah always was considered a good  
distributing point.

It is not always the scientific mind  
that contributes most to the sweet-  
ness of life. The bee, which distills  
honey from the flowers, perhaps, un-  
derstands little about botany.

### THE TAX BURDEN.

One suggestion of the state tax  
commission fastens the attention;  
that experience has shown that dif-  
ferent classes of property can now be  
taxed for state, county and city pur-  
poses. There is hope in that sugges-  
tion. At present tax affairs are so  
muddled that state, county and city  
taxes are heaped up, until many  
people hesitate to invest their sav-  
ings, and the Psalmists would be  
justified in reiterating, this time  
without qualification, "All men are  
liars."

Much complaint is heard in Padu-  
cah, which pays fully 90 per cent of  
the county's taxes, and yet county  
officials today begrudge spending a  
little of the county's money to drain  
the section adjoining the northwest  
part of the city; because they fear  
country residents will vote against  
them at the approaching election, if  
they spend any of the revenue,  
where most of it comes from.

It is true, that whatever benefits  
any part of McCracken county in  
some manner also benefits Paducah;  
but we ask is it not equally true  
that whatever benefits Paducah  
benefits McCracken county  
even more? Land receives its value  
from convenience to market. Land  
adjoining Paducah on the west is be-  
ing sold at the rate of \$1,200 an acre,  
and yet its owners do not spend a  
cent in improving the city, do not  
pay taxes commensurate with city  
values, and would object if the coun-  
ty should spend ever so little of its  
funds inside Paducah. There is in-  
justice here, and the injustice falls  
most heavily on the man, who by  
denying himself, has acquired a  
modest home and has no more.

If a certain class of property  
could be exclusively taxed for county  
purposes; and another exclusively  
for city purposes and still another  
exclusively for state purposes, a man  
would know just what he was getting  
into when he acquired property, and  
through the responsibility of that  
property for certain public expenses,  
would have a personal interest in the  
public affairs that would hold his at-  
tention fixed on the character of can-

didates for office and their conduct  
of the public business.  
Moreover, the status of franchise  
owning corporations soon would be  
clear, when the public mind became  
fixed on the subject, to the interest  
both of the public and the corpora-  
tions. At present there is a feeling  
of dissatisfaction on both sides. The  
public, not fully acquainted with the  
matter, feels that the corporations  
are not bearing their share. Corpora-  
tion officials realize the situations  
they have to meet and the expensive  
means necessary to meet them. With  
the segregation of tax bearing prop-  
erty, hard upon a constitutional  
amendment, an overhauling of all  
laws, regarding such franchises  
would be in order, and the status of  
corporations fixed for all time.

An overhauling of the legislature  
would also be in order, before any  
intelligent attempt at tax revision  
could be thought of.

### BLIZZARD POND AS A SHRINE.

The gentlemen, who proposed  
draining historic Blizzard Pond, did  
not realize they would incur the for-  
midable opposition of the Courier-  
Journal. The position the Courier-  
Journal appears to assume in the  
matter, is that of Collier's Weekly,  
in opposition to the commercializa-  
tion of Niagara Falls. The esteemed  
C.-J. regards Blizzard Pond as a sort  
of "water mark", and any effort to  
change its form and turn the land to  
commercial purposes as little less  
than sacrilege.

In a style, no less delightful for its  
lack of authenticity, the C.-J. yester-  
day morning associated Blizzard  
Pond with allegorical persons, said  
to have flourished here ere the foot  
of white man first left its impress in  
that treacherous sink, and casually  
remarked that there is a great clamor  
on account of the assessment of prop-  
erty to pay for the drainage of the  
pond.

Since the C.-J. generously omitted  
to mention some of the disagreeable  
features about the proximity of Bliz-  
zard Pond, Paducah will content her-  
self with the reflected glory of its  
historical setting, and consider the  
idea of turning the place into a  
pioneer shrine and summer resort, on  
the strength of the Courier-Journal's  
free advertisement.

### ROOSEVELT AND TAFT.

Submission of the constitutional  
amendment, providing for national  
income tax, is significant of two  
things; the tendency of great minds  
to simplify things, and the unerring  
instinct of President Taft for lawful  
methods. Ever since the supreme  
court declared the Cleveland income  
tax unconstitutional, we have been  
clamoring to change the supreme  
court. Mr. Taft suggested changing  
the constitution.

Mr. Roosevelt and Mr. Taft are  
always ethically in harmony, because  
both are right; but their tempera-  
ments differ. Mr. Roosevelt aroused  
the nation to the necessity for re-  
forms and progress; Mr. Taft is show-  
ing us how to accomplish those re-  
forms with the least friction and by  
lawful means. A Taft is always nec-  
essary after a Roosevelt. He would  
never be understood before a Roose-  
velt.

When the untrained, but unerring  
public conscience is aroused, it sees  
usually nothing but its ideal, and the  
ultimate end to be obtained. The  
shortest cut appeals to the popular  
fancy as the simplest. It is then  
that the hour calls for a man, who  
steadies the popular zeal and directs  
its purpose in lawful channels.

### THE PUBLIC FORUM.

**Roosevelt on Riches in the Outlook.**  
In one of Lowell's biting satires  
he holds up to special scorn the  
smug, conscienceless creature who  
refuses to consider the morality of  
any question of social ethics by re-  
marking that "they didn't know  
everything down in Judea." It is to  
be wished that some of those who  
preach and practice a gospel of mere  
materialism and greed and who speak  
as if the heaping up of wealth by the  
community or by the individual was  
in itself the be-all and end-all of life,  
would learn from the most widely  
read and oldest of books that true  
wisdom which teaches that it is well  
to have neither great poverty nor  
great riches. Worst of all is it to  
have great poverty and great riches  
side by side in constant contrast.  
Nevertheless, even this contrast can  
be accepted if men are convinced  
that the riches are accumulated as  
the result of great service rendered  
to the people as a whole, and if their  
use is regulated in the interest of  
the whole community.

The movement which has become  
so strong during the past few years  
to secure on behalf of the nation  
both an adequate supervision of and  
an effective taxation of vast fortunes,  
so far as their business use is con-  
cerned, is a healthy movement. It  
aims to replace sullen discontent,  
restless pessimism, and evil prepara-  
tion for revolution, by an aggressive,  
healthy determination to get to the  
bottom of our troubles and remedy  
them. To halt in the movement, as  
those blinded men wish who care  
only for the immediate relief from  
all obstacles which would thwart  
their getting what is not theirs,  
would work wide-reaching damage.  
Such a halt would turn away the  
energies and forceful men who desire  
to reform matters, from a legitimate  
object, into the channel of bitter  
and destructive agitation. The reader of  
Prince Kropotkin's Memoirs must be  
struck by the damage wrought to  
Russia by the unwise opponents of  
all reform who, by opposing every  
sensible movement for betterment,

turned the energies of the young  
men, who under happier conditions  
would have worked for rational bet-  
terment, into the channels of a use-  
less and destructive revolutionary  
movement.

The multi-millionaire is not per se  
a healthy development in this coun-  
try. If his fortune rests on a basis  
of wrongdoing, he is a far more dan-  
gerous criminal than any of the ordi-  
nary types of criminals can possibly  
be. If his fortune is the result of  
great service rendered, well and  
good; he deserves respect and reward  
for such service—although we must  
remember to pay our homage to the  
service itself, and not to the fortune  
which is the mere reward of the ser-  
vice; but when his fortune is passed  
on to some one else, who has not  
rendered the service, then the nation  
should impose a heavily graded pro-  
gressive inheritance tax, a singularly  
wise and unobjectionable kind of tax.  
It would be a particularly good thing  
if the tax bore heaviest on absent-  
tees.

### CABINET TALKS TARIFF.

Corporation Tax Amendment Dis-  
cussed at Length.

Washington, July 14.—For the  
second time in its young life the ad-  
ministration nurtured corporation  
amendment was subjected to close  
scrutiny at a cabinet session.

The attorney general had provided  
for the returned prodigal new rat-  
ment similar to that which it wore  
on its first journey from the white  
house to the senate. The 2 per cent  
tax on net earnings had been re-  
duced to 1 per cent, and other  
changes were made which convinced  
the president that it would be safe  
to let the younger venture once  
more to Capitol Hill and test its wel-  
come.

Although the amendment is fully  
equipped for the journey, its distin-  
guished sponsors have decided to  
keep it under their sheltering care  
until the tariff conferees have pro-  
posed far enough to give the cor-  
poration tax feature the glad hand  
and especially until the defenders of  
the measure have been consulted.  
Therefore it will remain with At-  
torney General Wickersham until the  
conferees are about ready to report.

### WOMAN ESCAPED PEN.

Dacey Gilpin, 18 Years Old, Wins  
First Honors.

Frankfort, Ky., July 14.—Dacey  
Gilpin, 18 years old, of Pulaski coun-  
ty, has the distinction of being the  
first woman to escape from the  
Frankfort penitentiary. She hid out  
in a workroom when the locking up  
hour arrived. Later, with a small  
ladder she reached the top of a 30-  
foot wall from the roof of one of the  
buildings.

She jumped from the wall and  
sprained both ankles. She walked  
three miles, when her injuries pained  
her so much that she surrendered at  
the first house she could find.

The girl and a 16-year-old sister  
are serving one-year terms for grand  
larceny. They have been in the peni-  
tentiary three weeks.

During the fall and winter season  
of 1908-09, which ended March 21,  
221 persons perished by shipwreck  
and eighty-nine vessels met with dis-  
aster off the New England and British  
North American coasts.

### A HARD STRUGGLE.

Many Paducah Citizens Find the  
Struggle Hard.

With a back constantly aching.  
With distressing urinary disorders.  
Daily existence is but a struggle.  
No need to keep it up.

Doan's Kidney Pills will cure you.  
Paducah people endorse this claim:  
Mrs. T. Brown, 515 Adams street,

Paducah, Ky., says: "From my ex-  
perience with Doan's Kidney Pills, I  
feel that I cannot praise them too  
highly. For a number of years I suf-  
fered off and on from an aching back  
and pains across my kidneys. Doan's  
Kidney Pills were so highly recom-  
mended for such annoyances that I  
began their use. They acted just as  
represented and gave me immediate  
relief. I have since taken them  
whenever I have needed a kidney  
remedy and they have always proved  
of benefit. Everyone who has tried  
this remedy on my advice has found  
it very effective."

For sale by all dealers. Price 50  
cents. Foster-Milburn Co., Buffalo,  
New York, sole agents for the United  
States.

Remember the name—Doan's—  
and take no other.

BRISTOL, VIRGINIA, WILL  
HAVE ANOTHER ELECTION.

Bristol, Va., July 14.—The tem-  
perance leaders of Bristol, Va., met  
and formally decided to contest the  
local option election of last Thurs-  
day, which resulted in a victory for  
the wets by a majority of 32. In go-  
ing over the registration lists, the  
committee found that 126 persons  
living either in the Tennessee half of  
the city, or outside the corporate lim-  
its, were allowed to vote in the elec-  
tion. This included those who voted  
either wet or dry.

### PADUCAH CONTRACTORS

Figuring for Work on the New Gov-  
ernment Building.

Mayfield, Ky., July 14.—Several  
contractors of Paducah were in the  
city to meet Mr. Beatty, contractor  
for the new postoffice building. Sam-  
ples of brick and sand were furnished  
by the visiting contractors and they  
will be sent to Washington for in-  
spection. Plans are to be furnished  
on the plumbing and steam heating  
later on. Those who were here from  
Paducah were: Ed Hannan, the  
plumber; Charles Fitzpatrick, of the  
Paducah Sand and Gravel company;  
Frank Hill, of the Hill & Karnes  
Brick company, and Henry Katter-  
john, of the Katterjohn Brick com-  
pany.

### News of Theatres

At Wallace Park.  
The largest weekday crowd of the  
season was at Wallace park last  
night, and enjoyed the various  
amusements, almost all attending  
the free exhibitions of moving pic-  
tures and enjoying the band con-  
cert. The pictures shown so far  
this week have elicited much com-  
mendation and much interest is be-  
ing taken in looking forward to the  
new series of pictures which are to  
be presented tonight. The free band  
concerts take place every night from  
7:30 to 9:30 and the pictures are  
shown twice during the evening—  
at 8:15 and 9:15, admission to all  
parts of the Casino being absolutely  
free.

At Johnsonville, will rise for 24

The Tennessee, at Florence, will  
fall; at Johnsonville, will rise for 24  
hours, then fall.

The Mississippi, from below St.  
Louis to Cairo, will continue rising  
indefinitely. As Chester a stage of  
30 feet is indicated for Thursday and  
31 feet for Friday. At Cape Girar-  
deau a stage of 33.5 is indicated for  
Thursday and 34 feet for Friday.

### RIVER NEWS

River Stages.	
Pittsburgh .....	6.0 0.0 at'd
Cincinnati .....	16.4 1.6 rise
Louisville .....	8.9 0.1 rise
Evansville .....	21.4 2.0 rise
Mt. Vernon .....	20.4 1.5 rise
Mt. Carmel .....	11.7 1.5 rise
Nashville .....	20.7 0.0 fall
Chattanooga .....	9.4 2.5 rise
Florence .....	10.0 1.5 fall
Johnsonville .....	16.4 1.6 rise
Cairo .....	39.0 2.1 rise
St. Louis .....	34.5 1.3 rise
Paducah .....	26.5 2.0 rise

The river stage at 7 o'clock this  
morning receded 26.6, with a rise of  
2.0 since yesterday morning.

The Joe Fowler arrived this  
morning at 10 o'clock from Evans-  
ville and left on return trip at noon.  
The Royal arrived this morning at  
10 o'clock from Golconda and left  
at 2 o'clock with a good trade.

The George Cowling made her  
two usual trips from Metropolis to-  
day at 11 a. m. and 4:30 p. m., do-  
ing a good business.

The Dick Fowler left at 8 o'clock  
this morning for Cairo and will re-  
turn tonight.

The J. B. Richardson arrived this  
morning at 10 o'clock, with a good  
load from Clarksville and left at  
noon for Nashville.

The Clyde will leave this evening  
at 6 o'clock, with a good freight list,  
for the Tennessee river.

The Chattanooga will arrive the  
latter part of the week from Chat-  
tanooga.

The Mary Anderson came in last  
night from Caseyville.

The Harth left this morning with  
a lot of coal for Hickman.

Capt. John Watts has resigned his  
position on the Dick Fowler and left  
last night for Baton Rouge, where  
he has accepted a position on the  
steamer Pelican of the Colorado  
Southern, New Orleans and Pacific  
railroad. His family will remain  
here until fall.

Mr. Charles Hopf has returned  
from Evansville where he has been  
in the interest of the West Kentucky  
Coal company.

The Mississippi river, fed largely  
by the Missouri river, is reaching the  
high water mark, at nearly every  
point along its course. The crest of  
the flood will probably reach the 34-  
foot stage at St. Louis tonight,  
while it will perhaps reach the 29-  
foot stage at Paducah, on this rise.

The Mississippi is rising at every  
point except at Pittsburgh and  
Nashville, was today's report.

The farmers will lose thousands  
of dollars, damage done to their  
wheat, as they have not cut much  
wheat, thinking that the rise would  
not occur until later in the summer.

In Missouri many people have  
been driven from their homes, and  
although no deaths have been re-  
ported, the damage done is inestim-  
able. Trains running in and out of  
St. Louis are not running on sched-  
uled time because of the tracks be-  
ing under water.

Seep water has about surrounded  
Cairo and it will soon be a rival of  
Venice, if the flood rises much  
higher.

Old river men say that the river  
has reached its crest here and that  
little damage will be reported  
around Paducah.

Official Forecasts.

The Ohio, from the mouth of the  
Wabash to Cairo, will continue ris-  
ing for 36 hours. A stage of 39.5  
feet is indicated for Cairo on Fri-  
day. Heavy rains last night will  
probably cause a second rise in the  
upper rivers.

The Wabash, at Mt. Carmel, will  
rise slightly for 36 hours.

The Tennessee, at Florence, will  
fall; at Johnsonville, will rise for 24  
hours, then fall.

The Mississippi, from below St.  
Louis to Cairo, will continue rising  
in

## Children's Chorus a Feature.

One of the most attractive features of the musical to be given at the Casino the first week in August, under the auspices of the Woman's club and directed by Mr. Harry M. Gilbert, will be a children's chorus of 150 voices.

Aside from the pleasure that the public will obtain in hearing these sweet young voices, the benefits that the children will derive are manifold, as ensemble singing under able direction cannot be commenced too early in the youthful singer's life, for it will eliminate many of the troubles that beset the singer in later years.

It is difficult to solicit personally a large number of children who have good voices, so parents are earnestly requested by the Woman's club to send or bring their children (between the ages of 8 and 14) to the club building on Kentucky avenue Friday, July 16, at 9 a. m. for the first rehearsal.

It is especially urged that all children expecting to sing in this chorus attend the first rehearsal, as the time before the date of the musical is limited.—Contributed.

## ELEVEN LAWYERS WILL SPEAK

## Hunter Murder Case is Now Being Argued.

Clarksville, Tenn., July 14.—The state closed its rebuttal in the Hunter murder trial, and the argument began. There are eleven lawyers in the case, six for the defense and five for the state, and all will speak. Danney Port opened the argument for the state and spoke for one and a half hours. He made a powerful plea for the conviction of the defendant. He said: "We have traced this pistol into the hands of Marcellus Rinehart; we have traced this steel bullet from J. E. Elder's pistol through the Elder-Conroy Hardware company, into the hands of Lem Adkins, through the body of poor little Hunter into the casement of his humble home, and gentlemen, I don't think you doubt but what it was fired from this pistol." In conclusion, Mr. Port said that, in his seventeen years' practice in the courts of Montgomery county he had never seen a case more completely made out, that the state had expended every effort to establish the testimony of the witnesses. J. D. Tyler followed and spoke for nearly two hours. He attacked the testimony of Lawhorn, Fischer, Piney and McCormack. He took up the four defendants separately, making an appeal to the jury for each man. Referring to the pistol transaction between Rinehart and the tramp, he said there are many agencies through which it might have gotten into the hands of the stranger after it left the express office, and it was probable that Rinehart had come into possession of the pistol in exactly the manner he described. In attacking the state's witnesses Mr. Tyler said a monument ought to be erected in honor of the smoothest lot of liars that ever lived.

## DROWNED BABY; HUNG SELF.

## Demented Woman at Harrisburg Takes Two Lives.

Harrisburg, Ark., July 14.—Mrs. E. H. Bailey, a prominent matron of this town, and mother of five children while her family were asleep Sunday night, took her baby boy, two years old, from his bed, drowned him in a barrel of rain water in her back yard, and then hung herself on the back porch with a well rope. Her body was not discovered until sunrise the following morning, when her husband awoke and went out to look for her. Mrs. Bailey lost her mind several weeks ago from long continued illness, but the members of her family did not know it, her actions not attracting unusual attention. She was 45 years of age.

## Her body was buried today under the auspices of the order of the Eastern Star, of which she was a member.

## RIVER DAMAGING CROPS.

## Rapidly Rising Waters Overflowing Fields.

Cairo, Ill., July 14.—Farmers of Alexander, Union and Jackson counties are facing a repetition of the flood of last year, when the corn crop in the Mississippi river bottoms was destroyed. A stage of 34 feet is predicted for Cape Girardeau by Friday, and this will come within a foot of last year's stage. Much wheat in shock is caught by the rising waters, which are coming up so rapidly that the wheat cannot be hauled out of the fields.

## At McClure, just above Cape Girardeau, on the Illinois side, Picayune and Devil's Islands have already been engulfed, and many acres of corn destroyed. At East Cape Girardeau the water tonight is in Edmondson's store, where the postoffice is located. The loss will be all the heavier because when the flood subsides it will be too late to put in another crop.

## NO POLITICS IN CENSUS.

## President Discusses Appointments With His Cabinet.

Washington, July 14.—President Taft discussed with his cabinet the distribution of census patronage in the south. The senators of several of the southern states recently have consulted with the president on this subject, and he has told them in broad way his policy will be to name enumerators and supervisors without regard to political affiliations, the desire being to get the best available men for these responsible and difficult positions.

## Republican and Democrats will share alike in the appointments throughout the south.

## Postmaster General Hitchcock, likewise, will be consulted extensively in the filling of census offices. Secretary Nagel, of the department of commerce and labor, under whose jurisdiction the census office operates, also will carefully scrutinize the recommendations made by southern senators.

## JUDGE ADVOCATE SELECTED

## Major Leonard Will Preside Over Court in Sutton Case.

Annapolis, Md., July 14.—Announcement was made at the office of Supt. Bowyer of the naval academy today that Maj. Harry Leonard, U. S. M. C., would act as the judge-advocate of the second court of inquiry which will try to straighten out the tangle of conflicting testimony surrounding the death of Lieut. Sutton from the effects of a pistol shot wound here on Oct. 12, 1907.

## The court meets at Annapolis next Monday, and will have full power to summon civilian witnesses, although the court which passed upon the case about two years ago was without such authority. Naval courts of inquiry were given power to summon civilian witnesses by an act approved Feb. 16, 1909, although an appeal for such legislation had been made by the navy department for many years.

## COMPETITION FOR UNIFORMS.

## No Monopoly of Cotton Manufacturers Will Be Allowed.

Washington, July 14.—Competition for the contract of supplying about 900,000 yards olive drab cotton cloth for uniforms for the army is earnestly sought by the war department.

## In order to give the cotton manufacturers who have had one chance another opportunity to bid for the contract, Secretary Dickinson has directed that samples of the cloth desired be submitted to all cloth manufacturers with a view to ascertaining whether, if the cloth is adapted, the department can procure suitable competition. So far the department has received only one offer for the manufacture of this cloth, this from a firm in New England.

## Other manufacturers have protested against the award to that firm on the general ground that it would establish a practical monopoly.

## DUEL WITH GUN AND PISTOL.

## Caused by Father Objecting to His Daughter's Beau.

Black Rock, Ark., July 14.—News reached here this morning of a shooting affray between Will Madden and G. F. Long which occurred on Madden's farm, three miles south of Portia, late yesterday evening. Long was employed by Madden and was working on his place. The difficulty arose because Madden objected to Long paying attentions to Madden's daughter.

## Long used a shotgun and he emptied the contents of a load of bird shot into Madden's stomach, from the effects of which it is thought he will not recover. Madden used a revolver shooting Long twice—one shot breaking his arm and another entering above the right eye. It is thought Long will recover.

## Lady Minstrels Stranded.

Humboldt, Tenn., July 14.—A tented aggregation of lady minstrels, called the Donaghey & Smith Minstrels, under the management of a woman named Smith, went broke here today, and the contents of the etc., were attached by different employees of the show for salary, which they allege has been due for several months.

## Lifting little loads helps a lot more than describing big ones.

Peter, Peter, Pumpkin-eater, had a wife who wouldn't work,  
Every Monday morning, the washing she would shirk,  
Till he bought Fels-Naptha and showed her how 'tis done,  
With cool or lukewarm water—hard rub or boiling none,  
Now she finds it easy and does it very well,  
And he never needs to shut her, within the pumpkin shell.

Just as the capacity of automobiles is measured in horse-power, the cleaning value of Fels-Naptha Soap should be measured in woman-power.

Fels-Naptha Soap gets rid of more dirt in thirty minutes than three or four women in half a day.

You've often wished for an extra pair of hands on washday.

Fels-Naptha Soap is better than several pairs of hands.

Because Fels-Naptha Soap actually attacks the dirt and dissolves it.

No boiling is necessary; no hard rubbing.

You just wet the clothes, soap well with Fels-Naptha, put to soak, and think of something else.

At the end of thirty minutes you rub them lightly, rinse out and they're ready for the line. All this in cool or lukewarm water, mind you in Summer or Winter—no boiling, no hot suds.

For all uses of Fels-Naptha, follow directions on the red and green wrapper.

## HARVEST TIME IS AT HAND IN GREAT CONTEST

What Does It Mean to You  
When the Race is  
Ended?

Get Your Friends to Push the  
Fight.

DON'T WASTE YOUR TIME.

### VOTING LIMIT.

From this time, until further notice, no candidate will be permitted to cast more than enough certificates, or pink slip votes, to place him more than 5,000 ahead of the leader at the preceding publication of scores. For instance, if the leader of the entire contest has 20,000 votes to his credit at the last publication of scores, a candidate will not be allowed to vote more than enough certificates to make his score 25,000 in the next publication. This restriction does not apply to the coupon votes clipped from The Sun or associate papers. No candidate will be permitted to lead two days in succession if any other candidate has enough votes to pass him.

Harvest time has now come, and in a short time the farmers will see the results of their efforts. What will the harvest be for you when the Great Contest closes on August 7th. Now is planting time for you and if you will work the field as it should be, you will be well satisfied with the reaping. Do not think that the field is being over-worked. There still remains good ground which may be ploughed. Don't waste your time. GET BUSY NOW.

From now on the battle will be strong as to who will be the winners. Get to work this week and see how many bonus votes you can secure; these you can hold in reserve and vote them as you see fit. Remember that the bonus offer this week may be the last, and you are certainly making a mistake if you are not working hard early and late. Don't stop at one Bonus. Get two, three, four—as many as you possibly can. Get out this week and make a strong fast campaign, and you will be surprised at the results.

The highest score today is 175,000. Before the week passes several candidates will have reached the 200,000 mark. Remember that with hard work you can rapidly bring your score up, and it should be the desire of every candidate to be among those having the highest score.

The Contest Department is kept busy answering inquiries as to who has the highest score. It would be very gratifying to your friends who have helped you to know that you are among the leaders, and they will be all the more ready and willing to spend their time and efforts in your behalf.

It is easy to get subscriptions. The Sun is well known all over Western Kentucky, and those who do not take it, are no doubt just waiting for some one to solicit their subscription. Make this the banner week of the contest, and see how many subscriptions you can turn in. Remember that the bonus is for NEW BUSINESS ONLY.

## SUIT

SOUTHERN AND ILLINOIS CENTRAL TO PAY \$640,000.

Claim Arising From the Three-Year Option on Property Given to the Two Railroads.

Nashville, Tenn., July 14.—Alleging that the property had been materially damaged and that contracts had been broken, damages to the extent of \$640,000 were asked for by the Tennessee Central Railroad company from the Standard Trust company, of New York, the Southern railway and the Illinois Central

railway in a cross-bill filed here in chancery. A short time ago suit was brought by the Standard Trust company for itself and the Southern and Illinois Central railways against the Tennessee Central for \$412,000, alleged to have been paid on claims against the Tennessee Central railroad.

According to the cross-bill, a contract was made in 1905 by the Tennessee Construction company, which controls the bonds and securities of the Tennessee Central, and the trust company as representatives of the Southern and Illinois Central giving the roads an option for three years on the property in which to purchase and acquire the securities. The road was to be operated by the two roads in the meantime. It is alleged that parts of this contract were broken and that the road had been injured to the amount of damages asked.

The Tennessee Central is now in charge of S. M. Felton, former president of the Alton, who represents the controlling interests. Chairman H. Clay Pierce and President Ristline resigned.

### AN INVITATION TO WOMEN

The Lydia E. Pinkham Medicine Company of Lynn, Mass., cordially invite any woman interested to call at their laboratory at Lynn, Mass., and see for herself the care which is taken with the vast correspondence received from the women of this country. No letter or testimonial has ever been made public without the written wish or consent of the writer. No confidence has ever been violated, and never in their history have they sold or disposed of any of their letters from women. It is for these reasons that thousands of suffering American women every year feel free to write Mrs. Pinkham for her valuable advice, which is always given free of charge.

Opportunity knocks once at a man's door, but the book agent isn't so easily discouraged.

## J. U. SAMMIS IS NEW ELKS HEAD

ELECTED GRAND EXALTED RULER OVER HERMANN.

Holland Makes Report That Last Year Was Most Prosperous for Order.

ELKS FOR POLITICAL PURPOSE.

Los Angeles, Cal., July 14.—The grand lodge of Elks elected: Exalted Ruler, J. U. Sammis, Lemars, Iowa; Leading Knight, Warren G. Sayres, Wabash, Ind.; Lecturing Knight, J. D. Jones, Scranton, Pa.; Secretary, Fred C. Robinson, Dubuque, Ia.; Treasurer, Edwin Leach, New York; Trustee, Perry A. Clay, Denver; Tyler, Charles L. Dicker, Bemidji, Minn.; Inner Guard, A. M. Taylor, St. Augustine, Florida.

The vote for grand exalted ruler was Sammis, 592, and Hermann 529. The fight of the session of the Grand Lodge was over the election of a grand exalted ruler.

During the last hour's struggle for votes, led by the Iowa delegation for Sammis, and the Iowa delegation for Hermann, grew into a bitter one and into the final struggle many prominent Elks, including Rush L. Holland, present grand exalted ruler, was drawn.

In a statement regarding the publication of a letter he had written to Sammis, Holland complained that unfairness had been shown in not giving out the entire contents of the letter, but only portions as made it appear that he had endorsed the candidacy of Sammis.

Detroit was selected as the place for holding the meeting of 1910.

In the annual report of Grand Exalted Ruler Holland, the matter of establishing an orphanage for the children of deceased Elks is submitted to the Grand Lodge without recommendation.

The report shows that last year has been one of unprecedented prosperity for the order. Forty-two new lodges were established and the total number of members exceeds three hundred thousand.

The report condemns the use of membership in the Elks' order for political purposes, and urges the expulsion of any member so abusing his privilege.

## TREE PESTS

CATERPILLARS CAN BE KILLED OFF BY SPRAYING.

Bandage About Trunk Will Prevent Return—Special Paper or Fly Paper Good for Purpose.

This is the time when the energetic suburban woman can save the family apple trees from being eaten by caterpillars. There is not the slightest difficulty in deciding what causes the ruin that meets the eyes when leaves look like skeletons and whole trees are bare, says a writer in the New York Evening Telegram. And by careful examination a woman will find a tiny green worm, not longer than an inch, and known familiarly as "measuring" or "inch worm," from the peculiar habit of traveling among the leaves at this particular season. To exterminate this "pest" by means of spraying is not difficult, though candy compels one to confess that much time is consumed in the process. Nevertheless, results justify it, and a bandage put around the trunk later will prevent a return of the worm.

An exterminating spray recommended by some nurserymen is made from a pound of arsenate of lead to five gallons of water. To apply this, a spray made for the purpose is necessary. An obliging neighbor who has one is always willing to lend, but should there be no such person the pump must be bought if good is to be accomplished. Of these the simplest and least expensive is a barrel in which is a hole with hand pump arrangement. To reach to the top of the trees it will undoubtedly be necessary to buy an extra length of hose, but this adds little to the expense. For unless the highest branch is covered with insecticide the whole work will be useless.

Spraying must be done when the leaves are dry. Directly after a rain will not do, and the stream, when employed, must be directed carefully to each branch and twig. The mixture, when dry, leaves a whitish

## IF IT DISAPPEARS, IT'S ECZEMA

How to Tell Whether a Skin Affection Is An Inherited Blood Disease or Not.

Sometimes it is hard to determine whether a skin affection is a sign of a blood disorder or simply a form of eczema. Even physicians are often puzzled in their diagnosis. The best way for any one afflicted is to go to Gilbert's and R. W. Walker Co. or any good druggist who handles pure drugs and obtain 50 cents' worth of poslam. Apply this, and if the itching stops at once and the trouble is cured in a few days it may be set down as having been eczema, as this is the way poslam acts in the worst cases of eczema, and in curing acne, herpes, blotches, tetters, piles, salt rheum, rash, barber's and other forms of itch, scalp and all surface skin affections.

Any one who will write to the Emergency Laboratories, No. 32 West Twenty-fifth street, New York, can secure, by mail free of charge, a supply sufficient to cure a small eczema surface or clear a complexion overnight and remove pimples in twenty-four hours.

No. 5

tinge, but it does not injure the fruit and will do no harm to any vegetation on which it falls.

**Quickly Routs Them.**

This spray kills the worms when they eat it, and at the first trace of the liquid the pests begin to scatter. Many will go to the ground on a web of their own manufacture, and may be killed by hand. This is not necessary, however, as they will be poisoned by the mixture.

In order to prevent their return to the tree each trunk should be banded. For this there is a preparation, not unlike fly paper, made for the purpose, and it is pasted about the trunk about the height of a man's head.

In order that nothing shall creep underneath and thus reach the limbs again, the bark should be scraped smooth in a band little wider than the paper. This enables one to put on the strip tightly.

Failing special paper the usual sticky flypaper used indoors may serve admirably, for any worm venturing on its surface will meet the same fate as do flies. The band need not be more than three inches wide. Tacking is the best way of holding it in place.

As a rule, one application of the insecticide is sufficient, but should worms escape another spraying a week later will effect the desired result.

## GLIDDEN AUTOS REACH CHICAGO.

COMPLETING SECOND LAP OF TOUR ENTERED.

Madison Is Next Stop, Leave Chicago at 7 O'clock This Morning—Pass Through Milwaukee.

OTHER POINTS ON THIRD LAP.

Chicago, July 14.—The Glidden automobile tourists arrived in Chicago last night under escort of members of the Chicago Motor club and other enthusiasts who journeyed to South Chicago to meet the incoming racers and to pilot them to the Congress hotel where the second lap of the endurance ended, the first from Detroit to Kalamazoo having been made yesterday.

The run was made from Kalamazoo, 143 miles, and was made under a torrid sun and over sandy roads. The roads were good until Niles, Mich., was reached and after that they were heavy and dusty, and filled with deep ruts. The only accidents of the day were minor ones.

The first car to arrive in this city was the E. M. F. pilot car.

In the evening the Gliddenites were the guests of the Chicago Motor club at dinner, and were shown various points of interest in the city.

At 7 o'clock the third lap was taken up, the objective point being Madison, Wisconsin. The course will follow the lake shore through Evanston, Waukegan and Kenosha to Milwaukee, thence through Pewaukee and Waterloo to Madison.

## NELSON WHIPPED

BY AD WOLGAST, FIVE POUNDS LIGHTER, BUT A FIGHTER.

Had Best of the Dane for Ten Hard Fought and Bloody Rounds.

Los Angeles, July 14.—Ad Wolgast, of Milwaukee, despite the fact that he weighed five pounds less than "Battling" Nelson, gave the Dane a thorough whipping in a ten round bout last night.

After an even first round Wolgast waded in and had the advantage of six of the remaining nine rounds. The champion did not have a single round in his favor, an even break being the very best he could get. Wolgast fought the champion at his own game and beat him decisively. Nelson's face was badly swollen and blood streamed from his nose and mouth at the close of the fight. Wolgast was practically unmarked.

It was a terrific fight from the start, and it was not until the ninth and tenth rounds that Wolgast succeeded in stopping Nelson's steady rushes. Nelson was a badly worried man in several stages of the fight.

## EXONERATED

THE CORONER'S JURY FINDS NO FAULT WITH GILES COX.

Colored Man Who Shot and Killed Homer Rogers Is Excused.

Giles Cox, colored, who shot and killed Homer Rogers, colored, was exonerated yesterday afternoon by the coroner's jury, as the shooting was held in self-defense. The evidence disclosed the fact that Rogers was raising a disturbance and his wife was in Cox's home when Rogers was ordered to remain outside. He called for his wife, and when he started to enter Cox raised his gun and fired. At the instant Rogers' wife was against Cox and said he had no business interfering with their trouble.

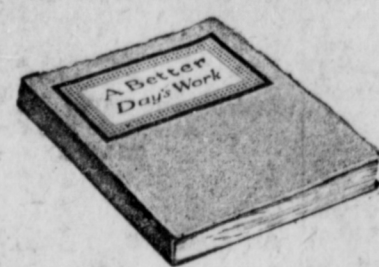

The verdict of the jury was: "We, the jury, being duly sworn to inquire into the death of Homer Rogers, find that he came to his death by a gunshot in the hands of Giles Cox in self-defense on July 11, 1909, on the George Dietcliff farm. G. A. Ross, A. S. Aday, Joe Hammond, Charles Vincent, James Wilson, H. Runge."

**President Helps Orphans.**  
Hundreds of orphans have been helped by the President of The Industrial and Orphan's Home at Macon, Ga., who writes: "We have used Electric Bitters in this institution for nine years. It has proved a most excellent medicine for Stomach, Liver and Kidney troubles. We regard it as one of the best family medicines on earth." It invigorates the vital organs, purifies the blood, aids digestion, creates appetite. To strengthen and build up thin, pale, weak children or run-down people it has no equal. Best for female complaints. Only 50c at all druggists.

The highest track-laying record on the Western Pacific railway was 7,890 feet a day.

## A WOMAN HUMILIATED

Would Not Attend Social Functions Because Her Hair Caused Unfavorable Comment.

There are many women in this world, handsome in features, perfect in form, graceful of movement and brilliant of mind, who keep in the background just because they have thing colorless and lusterless hair.

Such a condition causes vexation; it is annoying and even distressing, especially when other women seem to be blessed with an abundance of luxuriant and captivating hair.

In Paris they understand things about the hair that we do not know in this country. It was a Parisian Dr. Sabourand, who discovered that thin hair and dandruff are caused by a microbe.

It is the famous preparation, Parisian Sage, that kills the dandruff microbe; it is Parisian Sage that will make women's hair grow luxuriant; that will turn dull, lifeless looking hair, into delightfully lustrous and beautiful hair in a few days.

It is Parisian Sage that proves Dr. Sabourand's theory to be correct, for it is rigidly guaranteed by Gilbert's drug store to kill the dandruff germ and cure dandruff, falling hair and itching scalp in two weeks or money back.

Parisian Sage is a delightfully pleasant hair dressing and invigorator; it is not sticky or greasy. It should be used freely in summer as it keeps the scalp clean and cool and free from unpleasant odors.

The price for Parisian Sage is only 50 cents for a large, generous bottle and is for sale by leading druggists everywhere. Sold in Paducah on the money-back plan by Gilbert's drug store. The girl with the Auburn hair is on every package. Made in America by Gironx Mfg. Co., Buffalo, N. Y.

## HOSPITAL

## IMPROVEMENTS ORDERED BY GENERAL COUNCIL.

## Committee Receives Bids and Lets Contracts for the Work.

The joint hospital, sewer and sanitary committee of the general council met last night and let several small bids for public improvements. For placing hoods over the steam radiators at Riverside hospital was let to G. R. Davis for \$165. Fifty-four hoods will be necessary, and will protect the walls from the heat and dirt.

A contract for equipping the west and north windows of the city hall with awnings was let to George Jackson for \$3 each. The committee gave instructions not to purchase over 20 awnings. Ed Hubbard, committee clerk, was instructed to obtain prices from several painters for painting the interior of Riverside hospital. Charles Warren gave an estimate of \$234. The committee deferred action of the drainage of the western part of the city and met this afternoon at 4 o'clock to go over the ground before making any recommendations.

These present last night were: Aldermen Stewart and Sherrill and Councilmen Hannin and Wanner.

## CITY IS CUTTING DOWN ITS WEEDS

## TEN EXTRA MEN ARE PUT TO WORK THIS MORNING.

## Sidewalk and Alley Improvement Contracts Are Let to the Bidders.

## THE BOARD OF PUBLIC WORKS.

Ten extra men were placed at work today cutting weeds on the city property. This came about through the instructions of the board of public works yesterday afternoon, when it was thought best policy to force private property owners to cut weeds, and to let the city's property go untouched. Street Inspector Ernest Bell placed the men at work this morning with scythes, and health department was pleased at the continuance of the good work. Several men have been cutting weeds, but the crop was too large and the force of extra men was needed.

Bids for the improvement of Eleventh street between Broadway and Jefferson street, with concrete sidewalks were opened, and the contract was let to the Caldwell Concrete company. The lowest bid was \$1,455.20. Only two other contractors bid. The bid of the Caldwell Concrete company was: Concrete sidewalks, 16 cents a square foot; granite curb, 90 cents a foot; concrete gutter, 35 cents a foot; driveway, \$2.30 a square yard. The bid of George Weikel was: Concrete sidewalk, 17 cents a square foot; granite curb, 88 cents a foot; gutter, 32 1/2 cents a foot; driveway, \$2.80 a square yard. Total bid \$1,510.89. The bid of George A. Gardner was: Concrete sidewalks, 16 1/2 cents a square foot; granite curb, \$1.03 a foot; concrete gutter, 44 cents a foot; driveway, \$2.12 a square yard. Total bid \$1,577.44.

Bids were opened for the improvement by graveling of the alley between Meyers and Farley place. The contract was let to S. B. Gholson for 27 1/2 cents a foot the width of one-half of the alley. The following were the bids: W. L. Yancey, 28 cents; S. B. Gholson, 27 1/2 cents; Gardner 32 cents; Jones, 30 cents.

## Light Plant Payment.

A letter was before the board from the Babcock-Wilcox Boiler company, which is installing the new boiler at the city light plant, to the effect that the last payment of \$1,122 is due. The company said that the superintendent had accepted the test of the boiler at 225 pounds. Superintendent J. O. Keelber was ordered to send in a written report of the test. The board will not allow the bill until the brick work is completed around the boiler.

The street inspector was instructed to fill Fifth street between Broad and Elizabeth streets. The street is low, and property owners are complaining.

The board will meet next Tuesday afternoon for the purpose of opening bids for the improvement of the alley between Twelfth, Thirteenth, Broadway and Jefferson streets. Owing to the confusion of record City Engineer Washington has had difficulty in locating the property lines. The alley will be made about 18 1/2 feet wide so as some shade trees may be permitted to stand.

President Rudy, Secretary Louis Kolb and Mr. Finis Lack were present yesterday.

## CITY HALL PLANS

## ADOPTED AT MEETING OF THE COMMITTEES.

## Architect Lassiter Submits Drawings and Instructed to Proceed With Specifications.

Plans for the addition of a third story to the city hall were accepted last night by the finance committee and public improvement committee, and Architect Lassiter was instructed to go ahead in preparing the specifications. A special meeting will be held July 23 for the purpose of inspecting the plans for the new Central fire station. At the meeting Mayor Smith with a representative from each committee will meet to settle the details of the buildings.

Mayor Smith was instructed to secure a temporary office for the city engineer while the work is under way. The committee allowed City Jailer James Clark \$7 a month for the purpose of renting a cook room. The city is required to furnish the city jailer with a cook house.

## All Kinds of "Bugs" Will Appear at Fort Meyer During Demonstration.

Washington, July 14. (Special.)—There are more kinds of "bugs" at Fort Meyer these balmy days during the Wright aeroplane trials than have ever before been assembled in one collection. The insects aren't of the common, garden variety—they are of the genus crank, and the most buzzing, persistent, and foolish aggregation yet aggregated.

Wilbur and Orville do not belong to this classification. Far from it. They shut themselves up in the aeroplane tent behind a dozen husky soldier sentries simply to get away from the bugs. Every day there are a couple of dozen of these cranks on hand, sitting as near the scene as the soldier boys will permit, and handing out free advice to anybody who will listen. Each of them knows how to correct the minor defects in the Wright aeroplane—all of them will tell you, confidentially, that their idea of flying is vastly superior to the clumsy hit and miss efforts of the Dayton boys. Vastly different.

One of the bugs shows up at the press tent on the Fort Meyer parade grounds daily and illustrates by means of a small piece of twisted iron rod and a tin propeller-shaped missile the principle of the helicopter. Apparently, he has helicopters on the brain. He talks helicopter, walks helicopter and thinks helicopter. His little portable illustration of the helicopter was a child's plaything in bygone days, but, as the bug will explain, flying has been in vogue among birds since the creation.

Then there is another—this one says he's from Kansas—who followed the Wrights from Dayton here to Washington. He has some radical improvements to suggest in their machine. "The curvature of the planes isn't right," he plaintively declares. "They ought to be this way—" and he pulls out a small volume of assorted curve drawings, or, if you don't edge out of sight quick, he will offer to draw you a new diagram.

During one of the very best flights, when the Wright machine was curvetting along in the air and everybody else was engrossed in watching its behavior, one bug had his eyes glued to the flight of a big buzzard across the far end of the field. He said in explanation that the Wright machine was a mere bungling attempt at flying, and that the true solution of aerial navigation was to be found in the study of birds.

The two Wright brothers are quiet, sincere, modest and plucky men. The reason they don't mix in with the crowd, the reason they ask that the field be cleared, is simply that they are bug-shy. They would never have time to fly if they had to bear the onslaughts of the bug brigade.

In addition to the bugs, there is a big bunch of real sky pilots on hand every day for the flights. There is a Roy Knabenshue, for instance, who has scooted around in his dirigible for many a mile, and is wonderfully versed in balloon and aeroplane lore. A dozen or more members of the Aero club are always on hand. Then there are several lecturers on aeronautics, besides the officers of the signal corps, several of whom are expert aerial navigators. All of these have been annoyed by the aeronautical bug themselves and they know what it means. They are the quiet, reserved men who leave Orville and Wilbur to their own devices.

It is the best sort of fun to try to interview the Wright brothers. Neither will ever learn just how to "talk for publication." They are word-shy, as well as bug-shy. After every flight, the newspaper gang pounces upon the Dayton boys for information. The brothers take turns at being interviewed. Instead of making a short, concise statement of that which they want printed, both Wilbur and Orville will come out, smile pleasantly and wait for questions. Generally the answers are monosyllabic. Is the engine all right? Yes. Are you satisfied with the machine? Yes. Do you expect to do better? Oh yes. When are you going to make a long flight? Can't say yet—and so on.

After one of the first attempts this year to fly with the machine at Fort Meyer, which ended in the aeroplane refusing to stay in the air, Orville saw the newspapermen.

"What happened?" queried one reporter, anxious to inform a palpitating world. "Well," answered Orville—and he was serious, too—"we went up, and we came down."

## NO AGREEMENT

## REACHED BETWEEN PARK COMMISSIONERS AND OWNERS.

## Tenth Street Boulevard Proposition Will Be Considered Until Saturday.

Property owners on South Tenth street between Kentucky avenue and Jackson street will have until Saturday to agree to prices fixed on property or the proposed boulevard 100 feet wide will be dropped. Last night the citizens met with the board of park commissioners and talked over the situation. Some of the property owners said they had been offered more for their property, but anxiously announced that the price would be accepted or rejected by Saturday.

An ultimatum was read from the finance committee that the park commissioners must not overstep the allowance. In some cases it will be necessary to purchase all of the property, but other property owners will sell only a strip off the lots. The figures placed by the committee of real estate dealers as a fair value of the property was: Mr. Hart, who will receive direct benefit, \$700; Mr. Yopp, entire property, \$500; Mr. Moore, entire property, \$700; Mr. Puryear, direct benefit, \$1,500; Mr. Lane, entire property, \$1,700; Mrs. Palmer, direct benefit, \$1,500; Mr. Lane, property and house, \$1,600; Mr. Budde, direct benefit, \$1,300; Mr. Sisk, entire property, \$1,250. The total of the value placed by the committee is \$10,750.

The sentiment of the residents is to favor the improvement and it is thought the figures will be accepted by the property owners, as it would mean much to that part of the city.

## SUICIDE

## END OF ENGINEER STANHOPE GILL AT CLEVELAND.

## Former Paducah Man Ends His Life Because of Being Crippled—Railroad Man.

While in a fit of despondency, Stanhope Gill, a railroad engineer, formerly running out of Paducah, committed suicide in Cleveland by swallowing two ounces of laudanum. The funeral and burial took place this morning at 10 o'clock at his home in Newbern, Tenn. Gill was a popular railroad man, and several engineers left last night for Newbern to attend the funeral and burial.

Gill worked for the Illinois Central railroad for about 15 years, and for several years was engineer on the fast trains between Paducah and Memphis. About two years ago he went to Panama and began working for the government on the canal. While at work a piece of steel destroyed one eye, and he returned to the United States. On account of the accident he found it impossible to find work as an engineer, and it is supposed while brooding over the misfortune that he swallowed the poison.

## A NICE TIME ASSURED

Would you like to have a nice time this evening? The Christian Endeavor society of the Cumberland Presbyterian church will show you one if you wish.

They have planned to give an ice-cream supper this evening on the lawn in front of their church at Twelfth and Trimble streets, and have succeeded so well in their arrangements that they can now assure everyone who will attend a delightful evening. And it won't cost much either. Ice cream (or sherbet) and cake, 10c.

The proceeds of the entertainment will be devoted to the benefit of the church.

Go out this evening and assist these young people in their good work.

## SHUBERTS TO BE DENIED BOOKINGS IN THE SOUTH

Atlanta, Ga., July 14.—The national organizations connected with the theaters are holding their national conventions in this city this week. The first is the Associated Bill Posters of the United States and Canada. The others are the Southern Theatrical Managers' association and the Southeastern Bill Posters and Distributors' association. All met in preliminary session today, but the real business of the organization will not begin until tomorrow.

The most important business before the managers is the request of the Shuberts for independent bookings. All the Southern houses, except where the Shuberts have houses, are controlled by Klaw & Erlanger. The general opinion expressed by managers here is that the Southern theaters are too much dependent upon the Klaw & Erlanger people to risk a break by doing business with the Shuberts.

## Will Study Needs of Workmen.

Cincinnati, July 14.—James R. Garfield, of Cleveland, former secretary of the interior, and whom many believe will be the next Republican candidate for governor of Ohio, is planning a tour of Ohio, Kentucky and Indiana to study the needs of the workingman. He will go to Louisville, Covington and other cities of the state of Kentucky. This tour will be made by Mr. Garfield, Magistrate Smodes, of Cincinnati, and Judge George Martin, of Lancaster as representatives of the Ohio Bar association. That body wishes them to confer with labor leaders of the middle west and to determine from their conferences if it will be possible to enact a law in Ohio providing for the care of injured working men by their employers.

## Drinks of the Middle Ages.

The sportsman of all ages mixes his drinks. When he was tilting at the ring and splitting lances and so on he drank any kind of "bastard," as the mixed drink of the middle ages was called, even when it consisted of ale and wormwood wine, recommended in Breton's "Fantasticks" as a good morning draught, "to comfort the heart." These were not so deadly as the sound, old English ale and mead and methglin, and all the rest of them, being largely composed of honey and water, though a Greek traveler, over here on a week-end visit to some ancient Briton, described the Celtic ale as strong enough to cause a headache and injure the nerves. This could not have been true of the popular fourteenth century drink, mentioned in "Reliquiae Antiquae" as "cerum, 1. quidam liquor, uhey." One wonders how any one managed to get hilarious on a last hope of doing so that a duke chose a whole butt of it for his winding sheet.—London Chronicle.

## Wrights Fail to Fly.

Washington, July 14.—Orville Wright made two efforts to make a flight today at Fort Meyer. Both failed, however, the aeroplane refusing to rise higher than twenty feet. The unfavorable direction of the wind was largely responsible for the failure. On the second attempt a slight accident disabled the machine, so no attempt will be made to fly tomorrow.

"Young man," said the boss, "come hither and listen." He approached. "When you've made a mistake, forget it and go on to the next job. Don't potter around all day adding a lot of finishing touches."—Louisville Courier-Journal.

## NEW YORK'S SODOM.

## Figures Showing Alcoholism Among School Children.

The following signed statement was given out Friday by Dr. T. Alexander MacNicholl:

"In view of the publicity that has attended the reading of my papers on 'The Relation of Alcohol to Child Life,' and the varied accounts of what that paper contained, it seems proper to me to make the following statement:

"The paper was presented to the American Medical Society for the Study of Alcohol and Other Narcotics—a society composed of medical educators and investigators from every section of the United States, and reported my studies of 39,000 children of all ages, from infancy to 19 years. A few of the facts embodied in the paper are as follows:

"These studies reveal conditions existing in some sections of our great American metropolises that parallel the historic depravity of ancient Sodom; conditions with a growing disregard for legal restraint that are capable of an extension that would endanger the integrity of our municipal life.

"Fifty-eight per cent drink some form of alcohol beverage occasionally or at regular intervals; thirty-seven per cent drink one glass of beer a week to five glasses of beer a day; twenty-one per cent drink wine or spirits. In some groups the percentage of occasional or regular drinkers runs as high as seventy-nine per cent. Of these attending school forty-six per cent are backward in their studies.

"The following conclusions may be drawn from my studies of children:

"First—Alcohol in the form of beer and spirits does not overcome the disturbance of nutrition due to bad hygienic environment.

"Second—Alcohol tends to lessen all the bodily forces, mental, moral and physical.

"Third—The heaviest burden entailed by indulgence in alcoholic beverages is not borne by the drinker, but by his innocent and debilitated children.

"My report was intended solely for scientific investigators, whose co-operation I requested in a more exhaustive and comprehensive study."

## DR. OSLER SIXTY.

## Noted Maryland Man Held to Be a Human Inconsistency.

Baltimore, Md., July 14.—Dr. William Osler was 60 years old. He is also hale and hearty, but he is not hereabouts. The fact is, the joke is on him, and he knows it. So, several days ago, he stole silently away.

Dr. Osler must admit that he is a human inconsistency for didn't he prescribe the chloroform route for men of three score years?

The eminent physicians who held that a man's best usefulness was passed at 40, and that he ought to be chloroformed at 60, sailed recently for England, after a vacation trip to America. T. R. Ball, registrar of Johns Hopkins, said today that there was nothing in the appearance of Dr. Osler then to indicate he had any intention of quitting the world. He was enthusiastic over the prospect of getting back to active work as professor of medicine at Oxford.

## A Barber's Strokes.

This reporter went into a barber shop to be shaved. The barber said: "Ever know that in shaving a man a barber uses 540 strokes?" Then we kept count and the number of strokes of the razor in shaving once over was 183. But the barber said we should have counted the strokes in lathering, the strokes in applying the stinging stuff where he had cut a wart, the strokes in applying powder, bay rum, etc.—Atchison Globe.
